

Epoxy Flooring Flake Range

Seamless Epoxy Flooring Flake Range

- Decorative & inviting
- Durable and long-lasting
- Can be applied Indoor and Outdoors
- Scratch and wear resistance
- Easy to clean and maintain
- Safe to Walk on
- Does not harbour bacteria
- Chemical Resistant
- Permanent dust proofing solution

STEPS TO ACHIEVE A SUCCESSFULL SEAMLESS EPOXY FLAKE SYSTEM

- 1) Prepare the substrate thoroughly by diamond grinding or acid etching
- 2) Repair cracks and imperfections using two-pack epoxy fillers
- 3) Apply epoxy primer to the floor and allow the coating to cure
- 4) Apply epoxy base coat, broadcast flake chips over the wet film and allow to cure
- 5) Vacuum excess flake and apply two coats of polyurethane or epoxy top coat to seal the flake
- 6) Antislip media can be added to the topcoat to achieve a higher slip rating
